SUMMARY

I am a results-driven UI/UX Designer with a passion for crafting user-centered, intuitive, and visually compelling designs. Skilled in wireframing, prototyping, and front-end development, I create data-driven and responsive interfaces that enhance user experiences across web and mobile platforms.

SKILLS

Prototyping	Wireframing	Responsive Design	Visual Design
User Research	Interaction design	Typography	Problem solving

WORK EXPERIENCE

VVH Solutions (pvt) Ltd   **2024 - 2025**

- Led the UI design team, overseeing project workflows, mentoring designers, and ensuring high-quality user experiences.
- Designed websites and mobile app UI/UX interfaces, creating intuitive and visually appealing user experiences.
- Managed project timelines effectively, ensuring tasks were completed efficiently while maintaining design standards.
- Delivered projects on schedule, meeting deadlines with a focus on quality and user-centric design.

NOTABLE WORK

- Led UI/UX design for various projects, including Fast Way Website, Kapuwo Website, Sport TV Website, Job Martz Website, and HopeOn Project Web Portal, ensuring seamless user experiences across web and mobile views.
- Designed and developed UI/UX for mobile applications like Fast Way Mobile App, Pick Me Clone, We Mobile App, Bounce Mobile App, Touch Me Mobile App, and Kapuwo Mobile App, optimizing usability and user engagement.
- Developed an offline POS system, focusing on intuitive interfaces for retail businesses, ensuring smooth functionality in low-connectivity environments.
- Successfully completed multiple projects on time, collaborating with teams to deliver high-quality web and mobile applications that met business goals and user needs.
